

JOHN COY

My name is John Coy. I am a 50+ year model railroader. I joined the NMRA--August 2018. In November--2018, I was appointed as a Member of the Central Indiana Division (CID) Board. Since that moment, I have served the NMRA continuously on either my Division or Midwest Region Board (MWR). I'm the current Assistant Superintendent of the CID and will have served four full years as a MWR Director at Large in May--2023.

I truly enjoy serving all of you. To say I'm heavily involved would be the understatement of the year. I've been involved in 99% of the activities since joining.

I began my journey into the AP immediately--2018, have six certificates and have completed all of my requirements for my seventh certificate--November-2022. Very shortly, I will be submitting my paperwork for #7. Afterwards, my final submission for MMR. Hopefully, that will be completed by Spring--2023.

My hope is to become even more involved in the NMRA by becoming elected as the Central District Director. It remains to see what happens. You may not know where the track ends, but persevere and you shall see. I possess tremendous tenacity and perseverance.

Like a train, I'm moving forward, focused on my time, always working on the details, rocking and rolling toward my goal, but always staying on the rails.

Life is like a mountain railway...

We are the trains forging along the path. Every one of us has our own destination. How we get there is up to us; and preparing to get there is the most important thing of all!

I am exceptionally well-prepared to serve you and the NMRA.

My professional career (administration), educational background (graduate degree), vocational training and life experience, serving almost my entire NMRA tenure as a Board Member--along with my passion for model railroading and railroading has provided me with the skill set required to successfully serve as Central District Director.

My interactions with NMRA President Gordy Robinson and Eastern District Director John Doehring at Indy Junction has only served to heighten my interest in serving on our National Board.

I ask for your vote.

Train Kept a Rollin'...
